Project Description

Hello ! Thank you for taking the time to review my project.

Here's a few things you should know about it:

Techmate Solutions Ltd is a fictional computer sales company that I came up with to practice and showcase my knowledge of accounting. The goal of this project is to help Techmate Solutions Limited in their financial management and inventory tracking.

With the focus on essential business functions check out how I've tackled important tasks like;

1. Bookkeeping
2. Inventory Management
3. Payroll Management
4. Loan Amortization
5. Depreciation
6. Budget and Variance Analysis
7. Reconciliations
8. Financial Statement Preparation and Analysis

I put this together to show I'm ready to take on real challenges in the accounting world.

Watch the video to see how this all works. I hope you can see the effort and love that has gone into this—and who knows, maybe someday we shall work together!
